

A BLANCO Professional Group company

STAINLESS-STEEL FURNITURE

The hygienic solution when it comes to food processing.

FULL RANGE

K

Know-how

Many years of experience and our specialisation in stainless-steel furniture production guarantee exceptional results for you. Our products stand out due to their optimum functionality combined with an appealing design.

U

Unlimited possibilities

We manufacture your stainless-steel furniture to your specifications and with precise dimensions to suit your on-site conditions. Our expertise and technical possibilities ensure optimum solutions with minimum delivery times, even if adjustments need to be made on site.

G

Guaranteed hygiene

Seamless, custom-made top surfaces, rounded corners and stylishly welded doors and middle shelves evidence the hygienic profile. All middle shelves and drawers can be easily removed for cleaning.

E

Exquisite selection

Our product portfolio ranges from tables, wall cabinets and wall shelves through to drawer units, heating cabinets as well as open and enclosed underframes. Underframes are available in all hygiene versions. Our strength lies in detail and variety.

L

Long-lasting design

KUGEL stainless-steel furniture excels with a long service life thanks to its robust, torsion-free housing, noise-damping insulation on the top surface and a solid design for doors and drawers that are subjected to daily wear and tear.

Deep-drawn panel

Heating cabinet with sliding doors on one or both sides

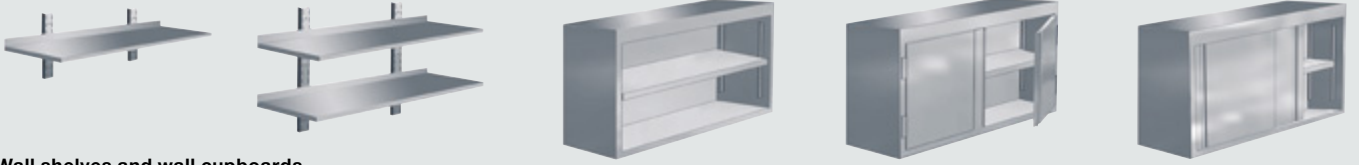

Rounded front edge with optional raised edge at rear

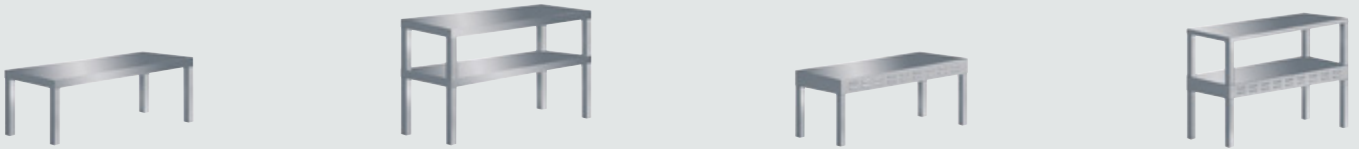

Flush-fitted drawers

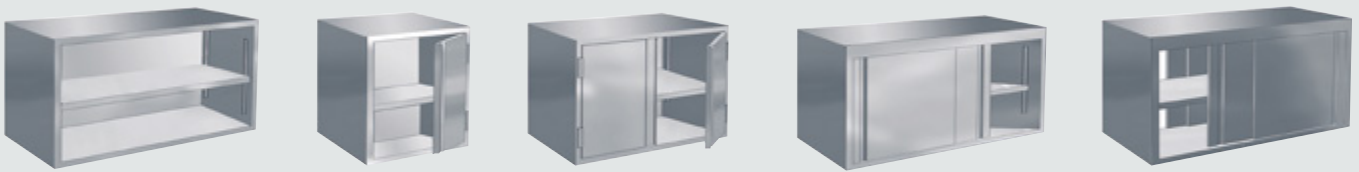

Waste drawers

Wall shelves and wall cupboards

Attachment shelves and warmer gantries

Cupboards available as either open versions or with hinged or sliding doors

Drawer units and appliance cupboards

Heating cabinets can be operated on one and both sides

Heating cabinet with open underframe and waste drawer combined – on stainless steel base

KUGEL Edelstahlverarbeitung

Perfection impresses: KUGEL Edelstahlverarbeitung is a specialist in high-grade, specific-purpose structures made of stainless steel. As a system supplier, we give advice and support to our customers, covering everything from development to final assembly for the main application fields: Railway, Medical, Industrial and Catering.

KUGEL Edelstahlverarbeitung is an independent subsidiary of the BLANCO Professional Group. BLANCO Professional and KUGEL Edelstahlverarbeitung have been certified to EN ISO 9001:2008 in all business units. This guarantees you maximum reliability and customer orientation.
